Sights and monuments in larger cities (Athens and Thessaloniki) are listed as sub-indices of that city. For the Parthenon, for example, look under 'Athens: Parthenon'. In general, explanatory or more detailed references (where there are many) are given in bold. Numbers in italics are picture references. Dates are given for all artists, architects and sculptors. Ancient place names and works of art are listed in italics. The stressed syllables of modern place names are indicated.
